

GOFFS DRUG TESTING

A Guide for Vendors

2022 sales season

Goffs and Goffs UK Conditions of Sale have specific clauses to deal with testing for a number of “Prohibited Substances” (as defined). Vendors should refer to the Conditions of Sale in each catalogue as they take precedence in all cases.

Medication	Status	Conditions of Sale	Auctioneers Announcements
Non-steroidal anti-inflammatory drugs (NSAIDs)	A prohibited substance	A positive test gives the Purchaser the option to cancel the sale *	Lot not returnable if administration announced at the time of sale
ANABOLIC STEROIDS	A banned substance <i>(NB the use of regumate may result in a positive test for Anabolic Steroids in the UK.)</i>	A positive test gives the Purchaser the option to cancel the sale *	None
PIROPLASMOSIS	Purchasers are offered a post sale test at the fall of the hammer for specific levels of Theileria equi and Babesia Caballi	A positive test gives the Purchaser the option to cancel the sale *	Lot not returnable if positivity announced at the time of sale
BISPHOSPHONATES	A banned substance	A positive test gives the Purchaser the option to cancel the sale *	None
CORTICOSTEROIDS	A prohibited substance	A positive test gives the Purchaser the option to cancel the sale *	Lot not returnable if administration announced at the time of sale
CLENBUTEROL/ BRONCHODILATORS	A prohibited substance	A positive test gives the Purchaser the option to cancel the sale *	None

* See Conditions of Sale 5 in the Goffs & Goffs UK catalogues
