

Vendors Sale Requirements

(Appendix 1)

A.1.1. Foals:

Passport, Intra-Community Health Certificate (dated within 14 days of sale)

A.1.2 Yearlings

Passport, Intra-Community Health Certificate (dated within 14 days of sale)
Up-to-date flu vaccinations in accordance with A.1.8

A.1.3 Horses In Training/Broken/Unbroken (Inc 2 Year Olds)

Passport, Intra-Community Health Certificate (dated within 14 days of sale)
Up-to-date flu vaccinations in accordance with A.1.8. Soundness for racing certificate (dated within 14 days) where applicable (to be completed on Goffs issued veterinary certificate). Soundness for breeding certificate (dated within 14 days) only required for fillies 3-y-o and over being sold as potential broodmares. CEM & EVA Certs required if offered with Soundness for Breeding Certificate in accordance with Conditions A.1.6 and A.1.7.

A.1.4 Fillies Out Of Training/ Barren Broodmares

Passport, Intra-Community Health Certificate (dated within 14 days of sale)
Up-to-date flu vaccinations in accordance with A.1.8
Soundness for breeding certificate (dated within 14 days). CEM (Contagious Equine Metritis) Certificate in accordance with A.1.6. EVA (Equine Viral Arteritis) Certificate dated in accordance with A.1.7.

A.1.5 Broodmares (In Foal)

Passport, Intra-Community Health Certificate (dated within 14 days of sale). A pregnant mare must be registered with Weatherbys as a "broodmare".
Up-to-date flu vaccinations in accordance with A.1.8

Vaccination against Equine Herpes Virus (EHV-1, EHV-4). All pregnant mares will be required to have been vaccinated against EHV in the 5th, 7th and 9th month of pregnancy and details recorded on the mare's passport. Pregnant mares will not be admitted to Goffs Premises without EHV vaccination certification. Covering Certificate. Pregnancy Certificate (dated within 14 days). CEM (Contagious Equine Metritis) Certificate in accordance with A.1.6. EVA (Equine Viral Arteritis) Certificate dated in accordance with A.1.7

A.1.6 Contagious Equine Metritis (Cem):

1 swab from Clitoral Fossa taken within 30 days of sale - to be negative for CEM.

A.1.7 Equine Viral Arteritis (Eva):

A blood sample taken within 30 days of sale to be negative for EVA. Animals that have had a positive result in the first test will need confirmation that a second test was taken, and that the result was either negative, or positive with a stable or declining titre. No broodmare or filly without an EVA Certificate will be allowed entry into Goffs Premises.

A.1.8 Flu Vaccinations:

2 primary injections to be given not less than 3 and not more than 13 weeks apart. If time permits a booster injection should be given not less than 5 and not more than 7 months apart. A further injection should be given every year. All vaccinations should be recorded on the Passport.

A.1.9

Vendors of Lots coming from overseas must apply to their Stud Book Authority for Export Certificates to be forwarded to Weatherbys.

These requirements may be altered or waived in the absolute discretion of Goffs
