DESCRIPTION OF THE HORSE

Horse's Name	<u>Rich Law No Law</u>	Breed or Type	<u>TBD</u>	APPROXIMATE AGE RANGE by Dentition* OR by Documentation* (* delete as appropriate) (See Note 2) <u>3yo</u>
Passport Number	<u>372 IRE 45312234T</u>	Sex	<u> gelding</u>	
Microchip Number	<u>985101045312234</u>	Colour	<u>Bay</u>	

STAGES OF THE EXAMINATION (See Note 3)

I omitted stage(s) of the standard procedure because

During the third stage of my examination the horse was (State the type of exercise) Lunge Canter

Flexion tests were performed on the following limbs: LEFT FORE / RIGHT FORE / LEFT HIND / RIGHT HIND (delete those tests not performed)

Trotting on a small diameter circle on a firm surface WAS / WAS NOT performed

A blood sample WAS / WAS NOT taken from the horse during the examination (for medication analysis if required).

REPORT OF RELEVANT CLINICAL FINDINGS

Mild to moderate thickening of both front medial splints
old neochons. No pain on palpation
No Other Findings
Height 15.3 HH.

Report continued on attached sheet YES / NO

OPINION OF THE EXAMINING VETERINARY SURGEON (See Note 4)

In my opinion, on the balance of probabilities, the clinical findings reported above DO / DO NOT prejudice this horse's suitability to be used for Racing

Veterinary Surgeon's Signature [Signature] Date of Signature 8/2/21

Veterinary Surgeon's Name G Adams
And Address (In Block Capitals) TTGA

THE EXAMINATION REFERRED TO IN THIS CERTIFICATE MUST TAKE PLACE WITHIN 14 DAYS OF THE AUCTION

MUST ACCOMPANY HORSE WHEN PRESENTED AT GOFFS ENTRANCE GATE

I HEREBY CERTIFY THAT THE ANIMAL DESCRIBED ABOVE:

- (a) has been examined by me today and shows no clinical sign of infectious or contagious disease;
- (b) is not intended for slaughter under a national disease eradication programme;
- (c) has not been vaccinated against African Horse Sickness
(if the animal has been vaccinated, delete previous line and insert date here _____) and does not come from the territory or part of the territory of a Member State of Third Country which is the subject of restriction for reasons of African Horse Sickness;
- (d) has not been obtained from a holding which was subject to prohibition for animal health reasons, nor was it in contact with equidae obtained from a holding which was subject to prohibition for animal health reasons for the following period of time:
 - six months in the case of equidae suspect of having contacted **dourine**, beginning on the date of the last actual contact or possible contact with a sick animal; however, in the case of a stallion the prohibition shall apply until the animal is castrated;
 - six months in the case of **glanders** or **equine encephalomyelitis**, beginning on the date on which the equidae suffering from the disease in question were slaughtered.
 - in the case of **infectious anaemia**, until the date on which the infected animals have been slaughtered and the remaining animals have shown a negative reaction to two Coggin's tests carried out three months apart;
 - six months in the case of **vesicular stomatitis**;
 - one month from the last recorded case in the case of **rabies**;
 - fifteen days from the last recorded case in the case of **anthrax**;
- (e) on the basis of declarations by the owner or breeder, there are no grounds for concluding that the animal has been in contact with equidae suffering from an infectious or contagious disease during the fifteen days immediately preceding inspection.
